

# UNLOCK STUDENT SUCCESS WITH RISE: Your Comprehensive Student Services Platform

Empower student success with RISE, the ultimate student services software that unites all the tools you need into one powerful platform. Designed for educators, administrators, and support staff, RISE simplifies workflows, ensures compliance, and provides a student-centered approach that drives personalized learning and growth.

## Key Features & Benefits of RISE

### Team & Student-Centred Approach

RISE integrates student support services into a single platform, enabling the creation of collaborative portraits by student, school, system, and region, as well as Individual Education Plans (IEPs), meetings management, including IPRC, and more. This holistic view of student data ensures that every team member has the information they need for informed decision-making, monitoring, and the evaluation of resource allocation.

### Student Profile

Name	Description	Category	Source	Rating	Actions
<input type="checkbox"/> Clear instructions	Step by step directions	Instructional		1	<input checked="" type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> Engage before speaking	Get student's attention prior to speaking	Instructional		1	<input checked="" type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> Frequent Breaks	Allow for frequent breaks to refocus	Instructional		1	<input checked="" type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> Alternative Workspace	have a defined space that J.L can go to work	Environmental		0	<input checked="" type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> Cueing/prompting	prompt to refocus attention	Instructional		0	<input checked="" type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> Enunciation	Clearly enunciate speech	Instructional		0	<input checked="" type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> First/then Choice board		Instructional		0	<input checked="" type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> High Structure		Instructional		0	<input checked="" type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> Language board		Instructional		0	<input checked="" type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> Model Me Kids videos		Instructional		0	<input checked="" type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> Modeling		Instructional		0	<input checked="" type="checkbox"/> <input type="checkbox"/>
<input type="checkbox"/> Positive Reinforcement (ABA)		Instructional		0	<input checked="" type="checkbox"/> <input type="checkbox"/>

Easily create new strategies, goals, strengths and needs.

Educators interacting with the student can endorse the tools in place to see what is and isn't working.

## Class Profile

See your classroom at a glance – easily identify class, group, or individual student strengths, needs, goals, modified/alternative expectations, and more.

## Meetings Management

RISE streamlines the planning, scheduling, and reporting of Board meetings, as shown in the screenshot with Identification and Review Committee (IPRC) meetings. It features a centralized calendar to manage room availability and committee member schedules.

## Empowering Students with every step of their journey

At the heart of RISE is the student. Key data, such as the student's strengths, goals, and progress, is easily accessible and updatable. If a student moves schools, their records follow them seamlessly, ensuring continuity in their learning journey. Data is linked to the student throughout their schooling, year after year.

## Case Management

Simplify case management with RISE's centralized system for tracking student progress, coordinating interventions, and managing case notes. RISE supports compliance with professional/college standards, managing waitlists and caseloads and providing role-based access to ensure appropriate security.

## Caseload Management

The screenshot shows the RISE software interface. The main navigation menu on the left includes Home, Schools, Classes, Students, Goals, Faculty, IEPs, Report Cards, Referrals, Medical Plans, Safety Plans, Meetings, Consultations, Assessments, Equipment, Support Services, Incidents, and Contacts. The current view is 'Referrals > Referral - Jin Lau'. The 'Add Contact' modal window is open, showing a search bar with 'LEARNstyle School' and a 'Search' button. Below the search bar, it says 'Total Records: 9'. The table below lists the records:

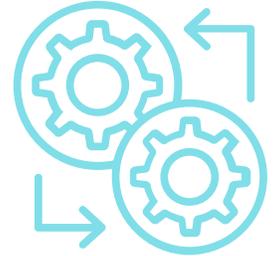

<input type="checkbox"/>	Name	Job Title	Email	Pending	Open	Waitlist
<input type="checkbox"/>	Grace Adler	Speech Language	gadler@school.ca			
<input type="checkbox"/>	Phoebe Buffay	Physiotherapist	pbuffay@school.ca		4	2
<input type="checkbox"/>	Brad Clooney	Speech Language	bclooney@school.ca	3	6	6
<input type="checkbox"/>	Margaret Cho	Teacher	mcho@school.ca			
<input type="checkbox"/>	Matt Palmer	Special Education Teacher	mpalmer@school.ca			
<input type="checkbox"/>	Anastacia Beaverhausen	Psychologist	abeaverhausen@school.ca	4	4	3
<input type="checkbox"/>	Jeff Lewis	Principal	jlewis@school.ca		7	
<input type="checkbox"/>						
<input type="checkbox"/>						

At the bottom of the modal, there is a 'Primary Member' checkbox and a 'Select' button.

Departments can manage and report on waitlists, assessing faculty capacity based on caseload.

## Integration with Student Information Systems (SIS) and Active Directory (AD)

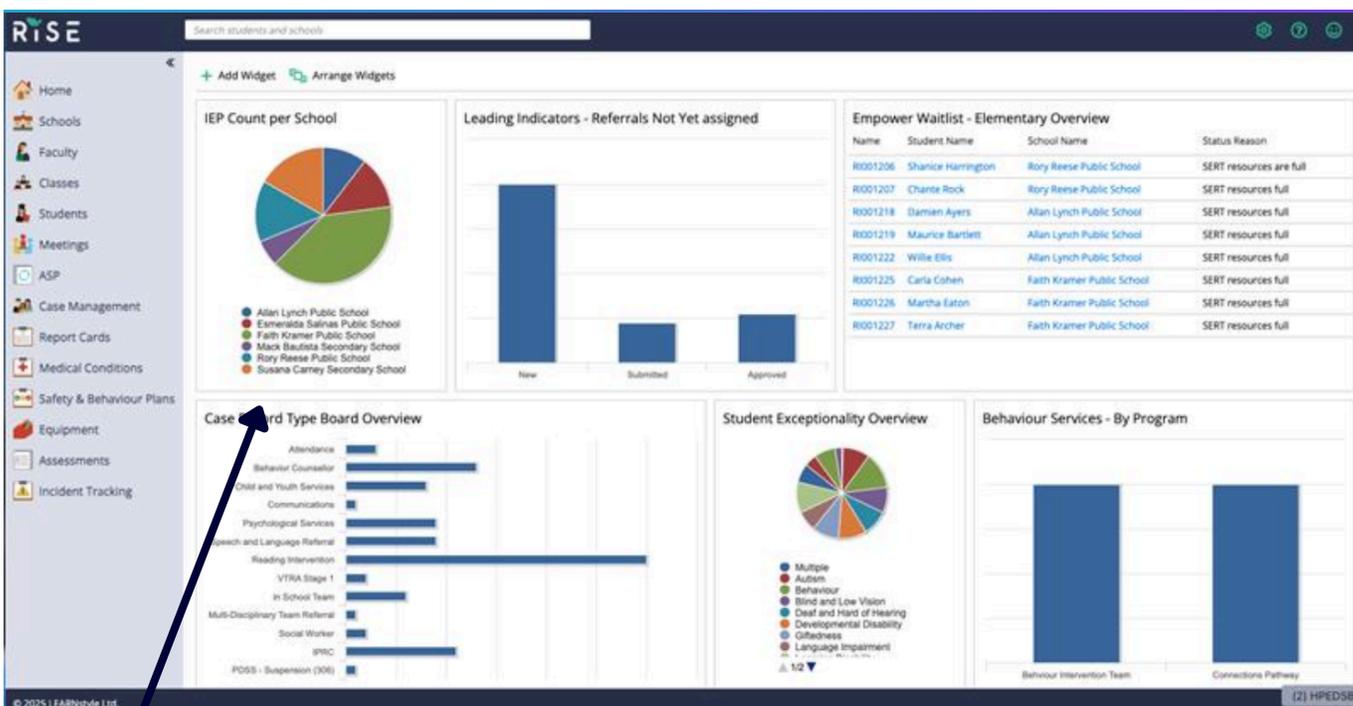

RISE seamlessly integrates with your SIS to ensure that student, timetable, and contact information is accurate, reducing human error and the double entry of data. This integration also supports the export of ONSIS data, ensuring that your data is both correct and up-to-date for compliance and reporting needs.

## Reporting & Analytics

Gain access to powerful reporting tools that track key metrics such as the number of IEPs, referrals, and students deemed exceptional. The ability to report on and have access to the data within RISE allows end users to generate reports based on their role-based access levels, ensuring relevant and secure data retrieval. These insights will inform better decision-making, resource allocation, and ongoing progress monitoring.

## Dashboards

Create customized dashboards that provide quick access to essential information and metrics, helping staff stay on track with tasks and meet student needs.

## Privacy & Compliance

RISE complies with privacy standards and legislation such as **PIPEDA, MFIPPA, and PHIPA**. With role-based access control offering four different access scopes—**Global, Team-Based, School-Based, or School and Team**—you have full control, including the ability to report who can view, edit, delete, and purge sensitive data..

## Security

The platform supports **Single Sign-On (SSO)** through Google, Microsoft, or School Board accounts. Access security and standards are strengthened even more with your **multi-factor authentication (MFA)**. Additionally, RISE will shortly achieve **SOC 2 compliance and certification**, demonstrating our ongoing commitment to data security.

## Independence Rubrics

RISE empowers school districts to track student independence levels through customizable rubrics, providing key insights to guide the allocation of Educational Assistants (EAs). By analyzing these insights, districts can ensure EAs are assigned where they're needed most, optimizing support and resource distribution.

	<p><b>Data-Driven Decisions:</b> Generate reports at both the school and district level to identify trends, monitor progress, and allocate resources more effectively.</p>
	<p><b>Targeted Support:</b> RISE helps ensure that each student receives the personalized assistance they need to thrive, improving overall educational outcomes.</p>
	<p><b>Efficient Resource Use:</b> By leveraging detailed data, districts can maximize the impact of their EA support, delivering targeted interventions where they're most impactful.</p>

## Customization through Configuration

RISE offers an extensive range of customization options, empowering school districts to adapt the platform to their unique processes and requirements. These features provide both flexibility and the assurance of compliance and efficiency.

	<p><b>Validation Rules:</b> Implement validation rules to guarantee data accuracy and completeness, minimizing the risk of errors in critical information.</p>
	<p><b>Forms:</b> Customize forms to collect and manage data in alignment with your district's needs, ensuring the right information is captured accurately.</p>
	<p><b>Workflows:</b> Tailor workflows to mirror district-specific processes, facilitating smooth transitions and ensuring tasks are completed on schedule.</p>
	<p><b>Data Fields:</b> Modify or add data fields to capture the exact details required for student profiles, IEPs, and other vital documents.</p>
	<p><b>Automations:</b> Set up automations for routine tasks such as approvals, notifications, and updates, enhancing efficiency and reducing manual work.</p>
	<p><b>Notifications:</b> Personalize notifications to ensure staff are informed of key events, such as upcoming deadlines or changes in student status.</p>

## LEARNstyle Support & Training for RISE

With LEARNstyle's training and support, users can confidently navigate RISE, streamline operations, and harness its full potential to support educational excellence.

- **Comprehensive Training:** During the implementation phase, we provide in-depth Technical Administrator and Train-the-Trainer sessions, equipping district teams with the skills and confidence to manage and support RISE long-term.
- **In-Platform User Guides:** RISE includes easy-to-access, in-platform help documents covering key topics within various sections, such as creating and building IEPs, building widgets for your Home Dashboard, and ensuring users can quickly find answers within the platform.
- **Multi-Tiered Support System:** Our structured support system provides timely assistance at various Service Level Agreement levels, with clear response and resolution times to resolve issues efficiently.
- **Bi-Annual User Group Meetings:** We also hold biannual User Group meetings, where all our board partners come together to discuss recent updates, share feedback, and request further enhancements.
- **Best Practices Sharing:** We understand that setting up a new system requires a significant investment of resources and time. To help streamline this process, we collaborate closely with your team, sharing proven strategies and best practices from our experience with other school boards.

We are dedicated to providing exceptional service and fostering continuous collaboration with our board partners to refine and adapt the system in response to evolving needs.
